He also served on Trans Texas’ Board of Directors from 1979 until April of 2015. Many of those years he served as Chairman. Happy International Credit Union Day!
Thursday, October 17, 2019

International Credit Union Day celebrates the spirit of the global credit union movement. The day is recognized to reflect upon the credit union movement's history, promote its achievements, recognize the hard work and share member experiences. International Credit Union Day has been celebrated on the third Thursday of October since 1948.

The ultimate goal is to raise awareness about the tremendous work that credit unions and other financial cooperatives are doing around the world and give members the opportunity to get more engaged.

October is Cyber Security Awareness Month!

Every year, since 2003, October has been recognized as National Cyber Security Awareness Month. This effort was brought to life through a collaboration between the U.S. Department of Homeland Security and the National Cyber Security Alliance. NCSAM was created to ensure that every individual stays safe and secure online.

This year the National Cyber Security Alliance’s message is to promote personal accountability. The theme ‘Own IT. Secure IT. Protect IT.’ will help encourage personally accountability and proactive behavior in digital privacy, security best practices, common cyber threats and cybersecurity careers.
